Office Action Summary	Application No. 09/855,374	Applicant(s) KESHA VARAJ, RAMESH	
	Examiner Ms. Arti Singh	Art Unit 1771	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. The Examiner has carefully considered Applicant's amendments and accompanying remarks dated 06/18/2005. Applicant's amendments to claims 1 and 5 have been entered. Applicant's only traversal is that the cited reference of Amamori (USPN 6168203) does not disclose or suggest an airbag of the variety set forth in the current claims, that is the first fabric blank being rectilinear in shape. To this the Examiner contends that Applicant has never defined what is meant by the term rectilinear, and when turning to the spec for a definition, said term is only used once in paragraph 0014 and appears to mean that the rectilinear piece has extra fabric, which overlaps any connecting piece, however this is not clear. When turning to the dictionary definition, Webster's states that rectilinear means moving in or forming a straight line, which really doesn't shed any light on the matter either. Therefore it is requested that Applicant clarify what is meant by this term and point out in the specification where this fact is actually supported. Applicant's amendment is not found to patently distinguish the claims over the prior art and Applicant's arguments are also not found persuasive of patentability for reasons set forth herein below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. As stated above it is not clear what is exactly meant by the term rectilinear. Please clarify what is meant by this term.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0 794 090 A1 issued to Morton International. If the Examiner's assumption that rectilinear means that one fabric is a bit larger and overlaps the second fabric blank then this reference reads on the current claims as it discloses an airbag cushion having superimposing pieces that are sewn together and have extensions (abstract and column 2). An inflator is accounted for (column 1) and the seams may be straight (column 3).

7. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by USPN 6168203 issued to Amamori as set forth in the previous action in paragraph 4. This rejection is maintained until further clarification is presented.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no

event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
